

FLEXIBLE SLURRY HOSE WITH FLANGES

WE MANUFACTURE FLANGED HOSES WITH INSIDE DIAMETERS FROM 50 TO 1200 MM WITH DIFFERENT PCD TO COMPLY WITH THE REQUIREMENTS OF MODERN EQUIPMENT.

The special design provides reliable and tight connection for smooth operation to maximize economic efficiency.

Wear-resistant part of the flexible hose is made of rubber based on natural or synthetic rubber, depending on transported material. We can increase the thickness of wear-resistant layer at the request of the Customer.
